

NEW

CONTIGO PRO

a continuous-filling, double-boiler system that delivers constant steam with no recharge down-time. **CONTIGO** features a durable 304 Stainless Steel body and boiler construction with LED digital readout for status, errors and user prompts, and a large, on-board, 1.32 gal detergent tank and 1.32 gal water tank with direct connect continuous water supply system.

The compact, cart-style design is perfect for tools and accessories, while the 6 metre hose and 10 metre power cord provide over 52' of range!

CONTIGO includes operation redundant safety features to keep you and your investment safe. Manufactured with the highest quality craftsmanship, and the trusted service and support of Steamerics Dealer network.

CONTIGO – a true commercial grade single phase steamer and vacuum extractor in one, and **your new secret weapon!**

A DRY VAPOR STEAMER & VACUUM EXTRACTOR IN ONE!

*Requires 230V 15 amps. Or use with a transformer supported by 2 x 110V circuits
